

CONNECT. SEND. DELIVER

WESTMOND
L O G I S T I C S

YOUR SUPPLY CHAIN SOLUTIONS.

ROAD FREIGHT

Road Freight is the transportation of cargo goods by road and compared to other modes of freight transport such as sea freight or air freight, the cost of road transport is cheaper.

At Westmond Logistics our road freight infrastructure and agency network enable us to get your consignment to its destination quickly and efficiently.

Westmond Logistics offer highly reliable door to door deliveries with daily departures across the UK and Europe providing the most cost-effective and efficient solution to deliver your freight.

With competitive rates, fast transit times, daily departures and full online tracking, our customers can ensure their shipments are delivered on time with full visibility from start to finish.

SEA FREIGHT

Sea Freight also known as Ocean Freight is the longest established mode of transport internationally and is the first choice for a cost effective solution. Our LCL and FCL services can provide our customers with the solutions to move their consignments with ease.

Whether it be European short sea, or Global deep sea – we at Westmond Logistics can cover all your supply chain requirements.

We provide a complete range of ocean freight services designed to offer our client base cost effective & efficient solutions for their supply chain.

With the vast experience accumulated within the Westmond Logistics, we have built up extremely strong relationships with both agents and carriers all over the globe.

Westmond Logistics provide its customers with the best competitive combination of routing, carrier, price and equipment to suit your supply chain requirements.

AIR FREIGHT

CUSTOMS SOLUTIONS

Air Freight is the most time efficient freight solution for many destinations around the world.

There is no faster or safer way to import and export goods than by air. Westmond Logistics provides expert international air freight forwarding services to companies worldwide offering tailored solutions for a wide variety of cargo. Whether it's a large-scale project or smaller door to door shipment, Westmond Logistics will assess your requirements and customise our service to suit your needs.

Offering services for high value goods, dangerous cargo, temperature controlled, pharmaceuticals, personal effects and much more.

Westmond Logistics can liaise directly with airlines on your behalf making us price competitive, with our main aim to maximise cost effectiveness without jeopardising service levels while providing transparency and visibility throughout your air shipment.

Our team are trained to the highest standards to meet the needs of our customers and the complexity when it comes to Air freight. Our flexibility, along with our problem solving can-do attitude, is key to our success and why our customers know they can rely on Westmond Logistics.
